

Prakriti API - Complete Website Functions & Features Documentation

Overview

Prakriti is a comprehensive e-commerce and inventory management system with multiple user roles. This document details all modules, pages, features, and their access permissions.

User Roles & Access Hierarchy

Role	Description	Primary Functions
SuperAdmin	System administrator with full access	System configuration, user management, purchases, payments
Admin	Administrator for general operations	Dashboard, distributors, stocks, sales, orders
Manager	Warehouse/production manager	Worker management, stock histories, materials tracking
Distributor	Wholesale distributor	Product catalog, sales, orders, customer management
Sales Executive	Sales personnel	Product sales, orders, leave applications, customer management
Retailer	Retail customer	Product browsing, cart, orders, wishlist
Supplier	Material/product supplier	Dashboard, basic product information
Team	General team members	Authentication, role access
Employee	Employee staff	Dashboard, permissions, profile management

Complete Modules & Features Matrix

1. AUTHENTICATION MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Authentication	Sign In	CREATE	User login with credentials	All Users	User table, JWT Token
	Sign Out	DELETE	Logout from system	All Users	Session management
	Forgot Password - Send OTP	CREATE	Send OTP to registered email	All Users	Email service, User table
	Forgot Password - Verify OTP	READ	Verify OTP sent to email	All Users	Email service
	Forgot Password - Reset	UPDATE	Reset password with verified OTP	All Users	User table
	Employee Roles	READ	Fetch available employee roles	Employee	Role table
	Get Roles (Team)	READ	Fetch all system roles	Team	Role table

2. USER PROFILE & ACCOUNT MANAGEMENT

Module	Feature	Operation	Task Details	User Access	Dependency
Profile Management	Edit Profile	UPDATE	Update user profile information	Admin, Manager, Distributor, Sales Exec, Retailer, Employee	User table
	Change Password	UPDATE	Update account password	Admin, Manager, Distributor, Sales Exec, Retailer, Employee	User table, Encryption

Module	Feature	Operation	Task Details	User Access	Dependency
	View Profile	READ	Display user profile details	All Users	User table
	User Dashboard	READ	Show user-specific dashboard data	Admin, Manager, Distributor, Sales Exec, Retailer, Employee	User table, Activity logs

3. DASHBOARD MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Dashboard	Admin Dashboard	READ	Overview of sales, stocks, orders	Admin	Sales, Stock, Order tables
	Manager Dashboard	READ	Warehouse metrics, worker stats	Manager	Worker, Stock tables
	Distributor Dashboard	READ	Sales, inventory, orders overview	Distributor	Sales, Stock, Order tables
	Sales Executive Dashboard	READ	Personal sales metrics, targets	Sales Exec	Sales, Order tables
	Retailer Dashboard	READ	Order history, wishlist, recommendations	Retailer	Order, Wishlist tables
	Supplier Dashboard	READ	Supply chain metrics	Supplier	Purchase, Supply tables
	Employee Dashboard	READ	Task assignments, leave status	Employee	Task, Leave tables
	System Permissions	READ	View user permissions	Employee	User_permission table

4. USER MANAGEMENT MODULE (Admin/SuperAdmin Only)

Module	Feature	Operation	Task Details	User Access	Dependency
Distributors	List Distributors	READ	View all distributors	Admin	Distributor table, User table
	Create Distributor	CREATE	Add new distributor	Admin	Distributor table, Validation
	Edit Distributor	UPDATE	Update distributor details	Admin	Distributor table
	Fetch Distributor	READ	Get single distributor details	Admin	Distributor table
	Delete Distributor	DELETE	Remove distributor from system	Admin	Distributor table
Suppliers	List Suppliers	READ	View all suppliers	SuperAdmin	Supplier table, User table
	Create Supplier	CREATE	Add new supplier	SuperAdmin	Supplier table, Validation
	Edit Supplier	UPDATE	Update supplier details	SuperAdmin	Supplier table
	Fetch Supplier	READ	Get single supplier details	SuperAdmin	Supplier table
	Delete Supplier	DELETE	Remove supplier from system	SuperAdmin	Supplier table
Manager	List Workers	READ	View all warehouse workers	Manager	Worker table, User table
	Create Worker	CREATE	Add new worker	Manager	Worker table, Validation
	Edit Worker	UPDATE	Update worker details	Manager	Worker table
	Fetch Worker	READ	Get single worker details	Manager	Worker table

Module	Feature	Operation	Task Details	User Access	Dependency
	Delete Worker	DELETE	Remove worker from system	Manager	Worker table
Sales Executives	List Sales Executives	READ	View all sales personnel	Distributor	Sales_executive table
	Get Sales Exec Details	READ	Fetch individual sales executive	Distributor	Sales_executive table
Retailers	List Retailers	READ	View all registered retailers	Distributor, Admin	Retailer table, User table
	Get Retailer Info	READ	Fetch retailer profile	Distributor	Retailer table
Customers	List Customers	READ	View customers	Distributor	Customer table
Employees	List Employees	READ	View all employees	Distributor	Employee table
	Get Employee Info	READ	Fetch employee details	Distributor	Employee table

5. PRODUCT CATALOG MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Categories	List Categories	READ	View all product categories	Admin, Distributor, Sales Exec, Retailer	Category table
	Create Category	CREATE	Add new product category	Admin	Category table, Validation
Sub-Categories	List Sub-Categories	READ	View subcategories	Admin, Distributor, Sales Exec, Retailer	SubCategory table

Module	Feature	Operation	Task Details	User Access	Dependency
	Create Sub-Category	CREATE	Add new subcategory	Admin	SubCategory table, Validation
Products	List Products	READ	View all products with filters	Admin, Distributor, Sales Exec, Retailer, Supplier	Product table
	View Product Details	READ	Get detailed product information	Admin, Distributor, Sales Exec, Retailer	Product table, Product_material table
	Create Product	CREATE	Add new product	Admin	Product table, Validation
	Edit Product	UPDATE	Update product information	Admin	Product table
	Delete Product	DELETE	Remove product from catalog	Admin	Product table
Material Prices	View Material Prices	READ	Display product pricing by material	Admin, Distributor	Material_price table
	Get Price Details	READ	Fetch detailed price information	Admin, Distributor	Material_price, Material_price_purity tables
Product Materials	List Product Materials	READ	View materials in products	Admin, Distributor	Product_material table
	Material Composition	READ	Show material breakdown	Admin, Distributor	Material table, Purity table

6. INVENTORY & STOCK MANAGEMENT

Module	Feature	Operation	Task Details	User Access	Dependency
Stocks	List Stocks	READ	View all inventory stocks	Admin, Manager, Distributor	Stock table
	View Stock Details	READ	Get stock information by ID	Admin, Manager, Distributor	Stock table
	Stock Products	READ	View products in stock	Admin, Manager, Distributor	Stock table, Product table
	Stock Product Details	READ	Get detailed product stock info	Admin, Manager, Distributor	Stock_material table, Product table
	Stock Price by Category	READ	View stock value by category	Admin, Manager, Distributor	Stock table, Category table
Stock Histories	List Stock Histories	READ	View stock movement history	Manager	Stock_raw_material_histories table
	Create Stock History	CREATE	Record new stock movement	Manager	Stock_raw_material_histories table
	View Stock History	READ	Get history details	Manager	Stock_raw_material_histories table
	Update Stock History	UPDATE	Modify stock movement records	Manager	Stock_raw_material_histories table
	Delete Stock History	DELETE	Remove stock history entry	Manager	Stock_raw_material_histories table
	Get Materials List	READ	List available materials	Manager	Material table

Module	Feature	Operation	Task Details	User Access	Dependency
	Get Worker Stock	READ	View stock assigned to worker	Manager	Stock table, Worker table
Stock Materials	Stock Material Association	UPDATE	Link materials to stocks	Manager	Stock_material table

7. PURCHASE & PROCUREMENT MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Purchases	List Purchases	READ	View all purchase orders	SuperAdmin	Purchase table
	Create Purchase	CREATE	Create new purchase order	SuperAdmin	Purchase table, Supplier table, Validation
	View Purchase	READ	Get purchase order details	SuperAdmin	Purchase table
	Edit Purchase	UPDATE	Update purchase order	SuperAdmin	Purchase table
	Update Purchase	UPDATE	Save changes to purchase	SuperAdmin	Purchase table
	Delete Purchase	DELETE	Remove purchase order	SuperAdmin	Purchase table
	Get New Invoice Number	READ	Generate next invoice number	SuperAdmin	Purchase table
	Download Invoice	READ	Export purchase invoice as PDF	SuperAdmin	HTML-PDF, Purchase table
	Download Invoice Info	READ	Export invoice with details	SuperAdmin	HTML-PDF, Purchase table

Module	Feature	Operation	Task Details	User Access	Dependency
	Download Invoice Items	READ	Export itemized invoice	SuperAdmin	HTML-PDF, Purchase_product table
	Return Products	UPDATE	Process product returns	SuperAdmin	Returns table, Purchase_product table
Purchases on Approval	List Pending Purchases	READ	View purchases awaiting approval	SuperAdmin	Purchase table
	View Purchase for Approval	READ	Get purchase details	SuperAdmin	Purchase table
	Update Purchase Status	UPDATE	Approve/Reject purchase	SuperAdmin	Purchase table

8. SALES & ORDER MANAGEMENT

Module	Feature	Operation	Task Details	User Access	Dependency
Sales	List Sales	READ	View all sales transactions	Admin, Distributor, Sales Exec	Sale table
	Create Sale	CREATE	Record new sale	Admin, Distributor, Sales Exec	Sale table, Validation
	View Sale	READ	Get sale details	Admin, Distributor, Sales Exec	Sale table
	Delete Sale	DELETE	Remove sale record	Admin, Distributor, Sales Exec	Sale table
	Download Invoice	READ	Export sale invoice	Admin, Distributor, Sales Exec	HTML-PDF, Sale table
	Download Invoice Info	READ	Export invoice details	Admin, Distributor, Sales Exec	HTML-PDF, Sale table

Module	Feature	Operation	Task Details	User Access	Dependency
	Download Invoice Items	READ	Export itemized invoice	Admin, Distributor, Sales Exec	HTML-PDF, Sale_product table
Orders	List Orders	READ	View all orders	Admin, Distributor, Sales Exec, Retailer	Order table
	View Order	READ	Get order details	Admin, Distributor, Sales Exec, Retailer	Order table
	Place Order	CREATE	Create new order	Admin, Distributor, Sales Exec, Retailer	Order table, Cart table, Validation
	Cancel Order	DELETE	Cancel existing order	Admin, Distributor, Sales Exec, Retailer	Order table
	Confirm Order	UPDATE	Confirm pending order	Sales Exec	Order table
	My Orders (Distributor)	READ	View own orders	Distributor	Order table
	Fetch Order (Distributor)	READ	Get single order details	Distributor	Order table
	Place Order (Distributor)	CREATE	Create order as distributor	Distributor	Order table, Validation
	Cancel Order (Distributor)	DELETE	Cancel own order	Distributor	Order table
	Assign Order (Distributor)	UPDATE	Assign order to retailer	Distributor	Order table

9. SHOPPING CART MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Shopping Cart	List Cart Items	READ	View items in cart	Admin, Distributor, Sales Exec, Retailer	Cart table, Cart_material table
	Add to Cart	CREATE	Add product to shopping cart	Admin, Distributor, Sales Exec, Retailer	Cart table, Validation
	Remove from Cart	DELETE	Delete item from cart	Admin, Distributor, Sales Exec, Retailer	Cart table
Sale Cart	List Sale Carts	READ	View sale cart items	Admin	Sale_cart table
	Add to Sale Cart	CREATE	Add items to sale cart	Admin	Sale_cart table, Validation
	Remove from Sale Cart	DELETE	Delete from sale cart	Admin	Sale_cart table

10. WISHLIST & FAVORITES MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Wishlist	List Wishlist	READ	View wishlist items	Retailer, Sales Exec, Distributor	Wishlist table, Wishlist_material table
	Update Wishlist	UPDATE	Add/Remove items from wishlist	Retailer, Sales Exec, Distributor	Wishlist table
	Check Wishlist	READ	Check if item in wishlist	Sales Exec	Wishlist table

11. PAYMENT & FINANCIAL MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Payments	List Payments	READ	View all payment transactions	SuperAdmin, Admin	Payment table

Module	Feature	Operation	Task Details	User Access	Dependency
	Create Payment	CREATE	Record new payment	SuperAdmin, Admin	Payment table, Validation
	Get Due Amount	READ	Calculate total outstanding dues	SuperAdmin, Admin	Payment table, Order table
	Get Wallet Balance	READ	View wallet balance	SuperAdmin, Admin	Wallet table
	Update Payment Status	UPDATE	Change payment status	SuperAdmin, Admin	Payment table
Wallet	View Wallet History	READ	Transaction history	SuperAdmin, Admin	Wallet table
	Wallet Balance Tracking	READ	Monitor wallet funds	All Users	Wallet table
Checkout	Checkout Process	CREATE	Complete purchase transaction	Distributor	Order table, Payment table

12. ADDRESS & LOCATION MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Address Management	List Addresses	READ	View user addresses	Retailer, Sales Exec	Address table, User table
	Create Address	CREATE	Add new address	Retailer, Sales Exec	Address table, Validation
	View Address	READ	Get address details	Retailer, Sales Exec	Address table
	Edit Address	UPDATE	Update address information	Retailer, Sales Exec	Address table
	Delete Address	DELETE	Remove address	Retailer, Sales Exec	Address table
Geographical Data	List Countries	READ	View countries	All Users	Country table

Module	Feature	Operation	Task Details	User Access	Dependency
	List States	READ	View states	All Users	State table
	List Districts	READ	View districts	All Users	District table
	Get Countries	READ	Fetch country list for selection	Retailer, Sales Exec	Country table
	Get States	READ	Fetch states by country	Retailer, Sales Exec	State table
	Get Districts	READ	Fetch districts by state	Retailer, Sales Exec	District table

13. LEAVE & ATTENDANCE MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Leave Application	Fetch Leave Application	READ	Get leave request details	Admin, Distributor, Employee	LeaveApplication table
	List Leaves	READ	View all leave applications	Sales Exec, Employee	LeaveApplication table
	Create Leave	CREATE	Submit new leave request	Sales Exec, Employee	LeaveApplication table, Validation
	Delete Leave	DELETE	Cancel leave request	Sales Exec, Employee	LeaveApplication table
Attendance	View Attendance	READ	Check attendance records	Sales Exec	Attendance table
	Update Attendance	UPDATE	Mark attendance	Sales Exec	Attendance table

14. REPORTING & ANALYTICS MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Activity Logs	Track Activities	CREATE	Log all user activities	SuperAdmin, Admin	ActivityLog table
	View Activity History	READ	Review user actions	SuperAdmin, Admin	ActivityLog table
Reports	Sales Report	READ	Generate sales analytics	Admin, Distributor	Sale table
	Inventory Report	READ	Generate stock analytics	Admin, Manager	Stock table
	Payment Report	READ	Generate payment analytics	SuperAdmin, Admin	Payment table

15. ADDITIONAL FEATURES MODULE

Module	Feature	Operation	Task Details	User Access	Dependency
Materials & Purity	List Materials	READ	View available materials	Admin, Manager, Distributor	Material table
	Material Purities	READ	View material purity levels	Admin, Manager, Distributor	Material_purity, Purity tables
	Product Sizes	READ	View available product sizes	Admin, Distributor	Product_size, Size tables
Banners & Promotions	List Banners	READ	View promotional banners	All Users	Banner table
	Create Banner	CREATE	Add promotional content	Admin	Banner table

Module	Feature	Operation	Task Details	User Access	Dependency
	Promo Codes	READ	Apply discount codes	Retailer, Customer	Promocode table
Product Reviews	List Reviews	READ	View product reviews	All Users	Product_reviews table
	Create Review	CREATE	Submit product review	Retailer, Customer	Product_reviews table
Certificates	Product Certificates	READ	View product certifications	Admin, Distributor	Certificate table, Product_certificates table
	Certificate Number	READ	Track certificate numbers	Admin	Certificate table
Tax Configuration	Tax Slabs	CREATE/UPDATE	Configure tax rates	SuperAdmin	TaxSlab table
Units & Measurements	Product Units	CREATE/UPDATE	Define measurement units	Admin	Unit table

CRUD Operations Summary by Module

Module	CREATE ✔	READ ✔	UPDATE 🔧	DELETE ✖	Total Operations
Authentication	3	3	1	1	8
User Profile	0	2	2	0	4
Dashboard	0	8	0	0	8
User Management	5	9	5	5	24
Product Catalog	2	7	1	1	11
Inventory & Stock	1	10	2	1	14

Module	CREATE ✔	READ ✔	UPDATE 🔧	DELETE ✖	Total Operations
Purchase & Procurement	1	8	3	1	13
Sales & Orders	5	8	3	3	19
Shopping Cart	2	2	0	2	6
Wishlist	0	2	1	0	3
Payments & Financial	1	4	1	0	6
Address & Location	1	9	1	1	12
Leave & Attendance	1	3	1	1	6
Reporting & Analytics	1	3	0	0	4
Additional Features	3	6	2	0	11
TOTAL	28	84	23	16	151

Operations Legend

- **CREATE** ✔ - Add/Insert new records (e.g., "Create new distributor", "Create purchase order")
- **READ** ✔ - View/Fetch/List records (e.g., "List all products", "View order details")
- **UPDATE** 🔧 - Edit/Modify existing records (e.g., "Edit product", "Update order status")
- **DELETE** ✖ - Remove/Archive records (e.g., "Delete distributor", "Cancel order")

Security & Access Control

JWT Authentication

Entity	Related Tables	Used In Features
User	Role, Address, ActivityLog	All modules
Product	Category, SubCategory, Product_Material, Product_Size, Product_Certificates	Catalog, Cart, Order
Stock	Stock_Material, Stock_Raw_Material_Histories	Inventory, Purchase

Entity	Related Tables	Used In Features
Order	Cart, Cart_Material, Payment, Order_Product, Order_Material	Order Management, Sales
Sale	Sale_Product, Sale_Product_Material, Payment	Sales, Reporting
Purchase	Purchase_Product, Purchase_Product_Material, Returns	Procurement, Approval
Material	Material_Price, Material_Price_Purity, Material_Purity, Purity	Inventory, Pricing
Address	Country, State, District	Shipping, Retailers
Leave	LeaveApplication, User	HR Management
Wallet	Payment, User	Financial

API Endpoints Summary

Authentication Routes (/api/auth/*)

- POST /signin - User login
- POST /logout - User logout
- POST /auth/forgot-password-send-otp - Send password reset OTP
- POST /auth/forgot-password-verify-otp - Verify OTP
- POST /auth/forgot-password - Reset password

Admin Routes (/api/admin/*)

- 40+ endpoints for distributors, stocks, sales, products, orders, purchases, payments

Manager Routes (/api/manager/*)

- Worker management (Create, Read, Update, Delete)
- Stock histories (Create, Read, Update, Delete)
- Material list and worker stock tracking

Distributor Routes (/api/distributor/*)

- 35+ endpoints for sales, orders, customers, employees, products

Retailer Routes (/api/retailer/*)

- Categories, products, cart, orders, wishlist, addresses

Sales Executive Routes (/api/sales-executive/*)

- Dashboard, profile, categories, products, orders, leaves

Supplier Routes (/api/supplier/*)

- Dashboard access only

Team Routes (/api/team/*)

- Authentication and role management

Security & Access Control

JWT Authentication

All endpoints (except public ones) require JWT token verification via `authJwt.verifyToken` middleware.

Role-Based Access Control (RBAC)

- `authJwt.isSuperAdmin` - SuperAdmin only
- `authJwt.isAdmin` - Admin and SuperAdmin
- `authJwt.isManager` - Manager only
- `authJwt.isDistributor` - Distributor only
- `authJwt.isRetailer` - Retailer only
- `authJwt.isSalesExecutive` - Sales Executive only
- `authJwt.isSupplier` - Supplier only

Public Endpoints

- Sign In
- Forgot Password flows
- Retailer Signup
- Product browsing (categories, products, materials)
- Distributor dashboard (read-only)

Technology Stack

Component	Technology
Backend Framework	Node.js with Express.js
Database	MongoDB (Mongoose) + MySQL (Sequelize)
Authentication	JWT (jsonwebtoken)
Password Encryption	bcryptjs
File Upload	Multer
Email Service	Nodemailer
PDF Generation	html-pdf-node, Puppeteer
Real-time Updates	Socket.io , Pusher
Pagination	mongoose-paginate-v2, mongoose-aggregate-paginate-v2
Security	Helmet, CORS, Crypto-JS

Document Version

- **Last Updated:** January 20, 2026
- **Project:** Prakriti API v1.0.0
- **Status:** Production (prod branch)

Note: This documentation provides a comprehensive overview of all website functions, user roles, and features. For specific implementation details, refer to individual controller and model files.
